ABOUT ME

During my career as a Front End Developer and UX/UI Designer, I've been focusing on creating products with an emphasis on great user experience and with attention to the smallest details.

I'm responsible, thorough, organized, self-taught, hard-worker, and willing to learn from the best.

EXPERIENCE

Spotinst

Tel-Aviv, Israel

Front End Developer

2018-Present

- Managing the front-end and product aspects in my scrum team.
- Developing features for the products' UI platform that presenting dashboards, charts and creation wizards.
- Leading and managing new features and projects.
- Building the backend-UI for the server side using nNode.js.

PlayerMaker

Tel-Aviv, Israel

Front End Developer and UX/UI Designer

2016-2018

- Built the product's console from scratch. The console included tables, charts and special UI elements.
- Worked closely with the product team to prototype and define the product.
- Built wireframes, graphical designs and interactive moquaps.

Israel Defence Force

Israel

Squad commander - Artillery Forces

2008-2011

- Commanded on a squad of 10 soldiers.
 - Managed self-propelled gun (Tomat).
 - Chosen to represent the IDF in the Jewish Agency delegation to Winnipeg, Canada.
-

EDUCATION

Technion - Israel Institute of Technology

Haifa, Israel

Bachelor of Science, Information Systems Engineering

2012-2016

- Under the Industrial Engineering and Management faculty.
 - Designed and developed a recommendation system web app based on AI algorithm.
 - Led a consulting project that improved business performance and efficiency by 40%. This project is now used as a use-case in consulting classes.
-
